Preparing Lessons Not in Your Albums

Those wonderful elementary Montessori albums are massive and yet...you find yourself needing to invent more presentations. Whether required by Common Core Standards, expected by your school community, something you just know the children should have or something that interests the children, we all need to devise lessons at some time...but what is a busy teacher to do? We will also tackle topics that participants want to address! *Come join us for a day devoted to designing your own lessons.*
